

Junior Blockchain Developer (Remote Internship – IT)

[Apply Now](#)

Company: TALENTKOMPASS deutschland

Location: Morocco

Category: computer-and-mathematical

LOCATION: Remote Work

SCHEDULE: Part-time

Are you passionate about blockchain technology and seeking an unparalleled opportunity to gain hands-on experience while working with a prestigious Management Consulting firm? TalentKompas Deutschland, a top Human Resources company based in Germany, is searching for a motivated Blockchain Development Intern to join our esteemed client. This remote position offers an exceptional chance for someone who is eager to learn and grow in a dynamic and fast-paced environment.

As a Blockchain Development Intern, you will work closely with the consulting and development teams, where you will be responsible for a range of tasks, including designing, implementing, and testing blockchain solutions. You will have the extraordinary opportunity to learn from experienced professionals who will provide mentorship and guidance throughout the internship. With this internship, you will gain valuable experience in blockchain development, smart contracts, and teamwork – all essential skills for a successful career in this field.

Responsibilities:

Assist in the design and implementation of blockchain solutions and smart contracts

Collaborate with cross-functional teams to gather requirements and develop solutions

Conduct research on emerging blockchain trends, technologies, and platforms

Participate in code reviews and contribute to the improvement of development processes

Test and debug blockchain applications to ensure optimal performance and security

Support the team with general administrative tasks as needed

Contribute to the creation of technical documentation and user guides

Requirements:

Basic understanding of blockchain principles and development practices

Familiarity with programming languages, such as Solidity, JavaScript, or Python, is a plus

Excellent written and verbal communication skills in English

Ability to work independently and as part of a team

Strong analytical and problem-solving skills

Knowledge of various blockchain platforms, such as Ethereum or Hyperledger, is a plus

Experience with version control systems, such as Git, is a plus
