Junior Network Engineer (Remote Internship – IT)

Apply Now

Company: TALENTKOMPASS deutschland

Location: Morocco

Category: computer-and-mathematical

LOCATION: Remote Work

SCHEDULE: Part-time

Are you enthusiastic about network engineering and looking for an exceptional opportunity to gain hands-on experience while working with a prestigious Management Consulting firm? TalentKompass Deutschland, a top Human Resources company based in Germany, is searching for a motivated Network Engineering Intern to join our esteemed client. This remote position offers an extraordinary chance for someone who is eager to learn and grow in a dynamic and fast-paced environment.

As a Network Engineering Intern, you will work closely with the consulting and engineering teams, where you will be responsible for a range of tasks, including network design, implementation, and troubleshooting. You will have the unique opportunity to learn from experienced professionals who will provide mentorship and guidance throughout the internship. With this internship, you will gain valuable experience in network engineering, security, and teamwork – all essential skills for a successful career in this field.

Responsibilities:

Assist in the design, implementation, and maintenance of network infrastructure

Collaborate with cross-functional teams to gather requirements and develop solutions

Conduct research on emerging network technologies and trends

Participate in network troubleshooting and performance optimization

Test and debug network systems to ensure optimal performance and security

Support the team with general administrative tasks as needed

Contribute to the creation of technical documentation and user guides

Requirements:

Basic understanding of network engineering principles and practices

Familiarity with networking protocols, such as TCP/IP, and routing concepts

Excellent written and verbal communication skills in English

Ability to work independently and as part of a team

Strong analytical and problem-solving skills

Knowledge of network devices, such as routers, switches, and firewalls, is a plus

Experience with network monitoring tools and software, such as Wireshark, is a plus
