

Senior Fullstack Developer NodeJs / ReactJs - Remote

[Apply Now](#)

Company: PRAGMATIKE

Location: Casablanca

Category: computer-and-mathematical

Job Description

Location Fully remote, EU timezone (CET +/- 2hours)

Start date Mid-December

Languages: English is mandatory; French is a plus

Responsibilities

Develop and maintain the backend and front end of our marketplace application.

Balance focus between backend and frontend development, with an initial emphasis on frontend tasks.

Lead the design and implementation of robust, scalable features.

Qualifications:

Expertise in React.js for frontend development.

Strong background in Node.js environments for backend work.

Familiarity with **NestJS frameworks** highly advantageous.

Experience with DigitalOcean database management/design (e.g., PostgreSQL), and SQL queries is beneficial.

Comfortable with TypeScript programming.

Previous experience in a leadership role such as lead developer, architect, or senior developer is desirable.

What We Offer

Competitive salary based on your experience.

Opportunity to work entirely remotely.

Flexible working hours in EU timezone.

Continuous opportunities for learning and professional development.

Important Note: Only applications that closely match the job description will be considered If your profile does not align with the specified criteria, you will not be shortlisted for this position.
